Name: _____ Poster Title _____

Presentation is specific to (check one): Graduate Research Undergraduate Research N/A

Directions: Please provide meaningful feedback to students on their poster. Students should not be awarded a score of less than 2 unless they are completely unprepared. *Research that is ongoing is NOT a reason to give a score below 2.* The checklist of criteria in each category (row) shows different levels of performance (columns), and students' work will likely reflect criteria under multiple levels (ex. demonstrating criteria under both advanced and proficient levels for the category of Presentation Design). Therefore, you will average the student's score for each category (row) and circle that score. To give the overall score, you will add together all of the categories and write the overall score in the associated place toward the end and at top right of the rubric.

	Advanced/4	Proficient/3	Approaching/2	(Optional) Additional Feedback
Scientific Merit of Research and Content of Poster <u>Overall Merit & Content Score:</u> (Check One) 4 3.5 3 2.5 2	All Proficient criteria AND: The effectiveness of the method(s) is explained The significance of the research with human, societal, or environmental impacts is articulated Future work is articulated	Clearly and concisely states problem in accessible language Method(s) is clear and easy to follow An adequate amount of data has been (<i>or will be</i>) collected to analyze the problem Acknowledgement of limitations and assumptions of the experimental design Conclusion is clearly stated and intentionally linked to the data and analysis	Statement of problem Partly or attempts to explain the significance of the problem Explains method(s) used Conclusions are listed
